DETAILED ACTION

1. Claims 1-20 are pending.

Allowable Subject Matter

2. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art Hsu et al US Patent No. 6,857,684, Dusse et al US Patent No. 6,64,260, and Redlich et al US Patent No. 6,591,306 fail to teach or suggest the feature of a first controller capable of determining if a mobile station is unprovisioned and if it is unprovisioned encrypting a portion of the payload such that only the provisioning server may decrypt the data (Applicant's Arguments filed 18 August 2005, Page 9). Instead, the cited prior art teaches the encrypting of data between a mobile station and a provisioning server without a first controller disposed between mobile station and the provisioning server. As a result, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
